

InSinkErator MultiTap BPIR Declaration

Version: V1

Designated building product: Class 1 Declaration

PAREX Industries Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/System

Name: InSinkErator MultiTap

Line Identifier: MTJUNO-CH, MTJUNO-BR, MTJUNO-JB, MTLIA-CH, MTLIA-BR, MTLIA-JB, MTUSO-CH, MTUSO-BR, MTUSO-JB

Description

The InSinkErator MultiTap range is a bench top mounted filtered near boiling, ambient cold and domestic hot water tap, manufactured from DZR brass and incorporates a spring-loaded lever for child safety.

It is suitable for domestic use with mains pressure water supplies. The near boiling water flows approx. 3 litres per minute while the mixer tap flows approx. 5 litres per minute.

The range is available with either a chrome, brushed steel or matte black finish. Coloured indicators identify hot and cold levers.

Scope of use

The InSinkErator MultiTap is intended for use in domestic kitchens. It is designed for a hot and cold water mains pressure supply. The unit is bench-top mounted. The system is compatible with all fittings manufactured to NZS 3501.

Conditions of use

InSinkErator recommends the MultiTap be installed by a registered plumber in accordance with the provided instruction manual. This product is intended for domestic use only. It is not recommended for high use applications such as public amenities, schools, sports facilities, factories, or commercial premises etc. This product is cleanable and impervious to moisture – cleaning shall be done in accordance with the manufacturer's cleaning instructions.

Relevant building code clauses

B2 Durability – B2.3.1(c)

F2 Hazardous building materials – F2.3.1

G1 Personal Hygiene – G1.3.2

G12 Water Supplies – G12.3.2, G12.3.5

Contributions to compliance

B2.3.1(c): InSinkErator MultiTap has a durability of at least 5 years when used under normal domestic conditions. Refer to spec sheet for warranty period.

F2.3.1: InSinkErator MultiTap is constructed from DZR brass and has no harmful concentrations in its construction. It is safe for use with potable water.

G1.3.2: InSinkErator MultiTap is constructed and finished in such a way as to allow for effective cleaning and avoid harbouring of dirt and germs.

G12.3.2b and c: InSinkErator MultiTap is installed in such a manner that avoids any likelihood of contamination within the system and water main. InSinkErator MultiTap uses components that will not contaminate the delivered water.

G12.3.5: InSinkErator MultiTap provides near boiling, ambient cold and domestic hot water for drinking, cooking and cleaning.
